

A life source and a light center

TEXAS PRISONS COMMUNITY ADVOCATES

95% of incarcerated people return to their communities. Humane prison conditions are good for all of society as humane treatment and education help people return to their communities stronger and more readily able to succeed.

- Did you know that most Texas prisons don't have AC, and inside heat indices regularly exceed 110-115 degrees in the summertime? Documentation shows that heat indexes have been as high as 149 degrees.
- Did you know that the U.S holds 4.25% of the world's population but incarcerates 25% of the world's prisoners?
- Did you know that 42% of Americans are affected by the incarceration of a direct family member?
- Did you know that a Scottish judge refused to extradite a person to Texas in 2021 due to the inhumane conditions in our prisons?
- Did you know that children who experience parental incarceration are more likely to become part of the system themselves due to poverty, mental health issues, and poor interactions with the police?
